

## Law Firm Abbotsford

Law Firm Abbotsford - Leading the way in the private equity marketplace, our team has been extensively involved in some of the most significant private equity transactions in the history of our nation. We work along with the private equity firms and financial institutions for assistance in matters connected to financial transactions and in dispositions and acquisitions of companies. Our team helps private equity fund sponsors in the formation and ongoing maintenance of funds.

We have a wide array of service areas which help to compliment our private equity team. In order to offer successful private equity investments and management of portfolio businesses, we have gained extensive experience to provide our private equity clients with banking, capital markets, antitrust, mergers and acquisitions, tax, pensions and benefits, intellectual property, real estate, employment and labour, environmental, corporate governance, insolvency and restructuring.

In the private equity market, we have built contacts and relationships along with American, Canadian, and international clients. The depth and strength of our close working relationships with public companies and private companies, pension funds, institutional investors, leading private equity firms, entrepreneurs, venture capital firms and financial institutions allow us to foresee opportunities and connect our clientele to each other for their mutual benefit. Our private equity clients benefit from the sources of debt financing wherein we can connect them. When our clients like to sell or buy companies, we can introduce them to possible buyers or sellers.

We are often called upon by the lead counsel in foreign transactions to be able to give domestic legal advice and assistance with transaction execution. We regularly collaborate together with worldwide law firms in cross-border private equity transactions that otherwise have global components. In overseas or foreign transactions, we work along with top foreign law firms so as to acquire advice about foreign legal considerations.
