

Personal Injury Law Firm Abbotsford

Personal Injury Law Firm Abbotsford - Our Technology Law group can provide you with innovative legal solutions, whether your company is already a successful enterprise, or in the process of starting up, or on the verge of commercializing a new technology. Our company's value-based services would help you develop and promote innovative products.

There are various legal problems affecting today's technology companies. Our lawyers offer help at all phases within the development of your technology business. We have experience throughout the phases of securing patent, copyright and trademark protection. We understand the value of your intellectual property. We will carefully make joint venture agreements and financing arrangements to ensure that you have the flexibility to manage your research well and continue to commercialization. We pay special attention to production arrangements, strategic alliances and licensing agreements to be able to ensure that you acquire the maximum benefit possible from your intellectual property.

For business arrangements for technology services, we give special consideration. Amongst our services will include the preparing licensing agreements, software implementation and development agreements, software support and maintenance agreements, data centre and service bureau agreements, marketing and distribution agreements and hardware maintenance and purchase agreements. We carry out project reviews and rescues, and provide advice about the legal aspects of e-commerce initiatives. We likewise provide guidance throughout the implementation and negotiation of agreements for the procurement of technology services and software.
