

Criminal Defence Lawyers Abbotsford

Criminal Defence Lawyers Abbotsford - Our company specializes in providing legal recommendation in technology law for technology-related businesses. The growing field of technology law now comprises e-commerce, computer software and hardware, telecommunications, multimedia, pharmaceuticals, biotechnology, film and television, interactive media, broadcasting, as well as Web-related industries. Technology businesses these days need professional recommendation suited to their unique needs.

Our practice of technology law, concentrates on mergers, public and private financings, divestitures and acquisitions, technology transfers and licensing agreements. Clients seek out our experts in technology law for advice concerning the negotiation of contracts and different transactions. Other services include intellectual property and employment audits, the preparation of agreements, like for instance consulting and employment agreements, and agreements associated to technology distribution and marketing. Intellectual property protection concerns copyrights, trade-marks, industrial designs, trade secrets and patents. E-commerce problems include infrastructure and website development, maintenance agreements and internet access.

Working in conjunction with Commercial, Securities, Intellectual Property, tax & Trust and Labour and Employment lawyers, our lawyers to offer suggestion to technology clients on a wide range of corporate issues. Technology law experts work with private venture funds that give capital to emerging technology businesses.

In cases of infringement of our clients' patents, copyright, trade-marks, or trade secrets, technology litigation lawyers represent the interests of clients before all levels of court. Litigation lawyers act fast to solve employment, intellectual property, contractual and financing disputes before they escalate. The early identification of potential problems is a top priority. To prevent problematic issues connected to false and misleading promotion along with unjust trade practices, clients receive recommendation concerning the legalities of advertising and the correct marketing of products and services. Guidance is provided on such legal matters as trade-mark use and registration, privacy, labeling and packaging, and comparative advertising.
