Wrongful Death

The death of a loved one due to neglect of another can result in a wrongful death claim. Wrongful death claims, like personal injury claims, may result when there has been negligence resulting in truck, motorcycle and car accidents, malpractice, workplace accidents, and death caused by defective products.

Our Wrongful Death litigators make use of an aggressive, yet compassionate method in order to get justice and full compensation for our clients. Our aim is to arrive at an outcome that provides for the client's needs in the present and within the future.

Usually just surviving spouses, children, and others in certain relationships with the decedent are entitled to bring wrongful death claims. Other individuals who were dependent upon the decedent at the time of his or her death may have a claim in some situations.

Our experienced and knowledgeable lawyers would meet with you for a free consultation on weekends, in the evening, at your home (or anyplace). Please call us if you sustained a serious injury or lost a loved one because of the negligence of others.
