Defendants in a class action are stressed by both money and time. We have strategies to lessen disruption, and to move the issue to successful resolution in as efficient and timely a manner as possible. Our first strategy representing defendants is to try to limit the action or have it dismissed completely at the pre-certification phase. We have a track record of accomplishing this for our clients, which means that our clientele are let out of actions without ever having to partake in a certification hearing. Our objective is to resolve the litigation and prevent the need for a class action trial. We have been successful at negotiating favorable class action settlements for a lot of our defendant clientele. This frees them from future claims of unknown class members and gives them peace of mind.

Our initial step, for the plaintiff class clients, is to properly limit the class while drafting the claim to reduce the certification period early on within the process. Our great skill helps us to correctly determine the most suitable case whether it be a large loss or class action procedures to obtain the best results.
